

How to Activate AllStream Now on Apple iOS Mobile Devices

Instructions for your mobile iOS device may vary depending on its model and software version.

Getting Started

You will need these items before you begin:

1. Your Apple ID and Password
2. AllStream Login and Passphrase. Alliance should have emailed this to you, or you can generate a new one from a device that already has AllStream activated on it. Call us at (605) 582-6311 if you need help.

App Store

Open the Apple App Store and search for AllStream Now. Install and Open the app. You might be prompted to enter your Apple ID and password, Face ID, or complete other authentication steps depending on your settings.

AllStream Login and Passphrase

Next, you will need your AllStream Login and Passphrase provided by Alliance Communications. You can also generate a new code from an existing device that has active AllStream service.

Enter your Login and Passphrase. Press Sign In.

How to Activate AllStream Now on Additional Devices Using your Apple iOS Mobile Device

You can activate AllStream Now to more supported devices by generating a new login and passphrase. From an Apple device that has active AllStream service, open your AllStream Now app.

Press the Hamburger menu in the upper left corner of your AllStream window. Select Settings, then Add New Device.

A new Login and Passphrase will display on your screen. Use that information when activating AllStream on additional devices.
